Testimonials

"From the first day I was blown away from the support that everyone gave at Microsoft, and how much everyone truly wanted us to be there. Even in the short time I was at Microsoft, I learned so much about technology, but more about how people can achieve professions that they love and enjoy. **Everyone's enthusiasm about their professions inspired me to find what I love and pursue it. Not only in technology, but in life.**"

"I thought you had to be a geek to work here but this camp changed my mind."

"I am now much more interested in technology related careers. They are so much fun."

"It definitely had a **positive impact** on me. It got me inspired to get involved and **really gave me confidence to live out my dreams**. It gave me great ideas and I am so excited to continue on!"
